
BIOL 014: California Plants and Animals

This course is a general education course which introduces California plants and animals in an ecological context. An ecosystem approach is used to explain the geographic distribution of lifeforms and their community associations. This course also provides an introduction to the natural history of California with an emphasis on plants and animals. The most common life forms from the coast to the mountains to the desert are explored within the ecological context. This class is designed for non-majors.

Letter Grade

Units: 4

Lecture Hours: 48 – 54, Lab Hours: 48 – 54

Prerequisites: None

Co-Requisites: None

Advisory: None

Transferable to both UC and CSU

WVC GE: Area A-5: Natural Sciences

CSU GE: Area B2 - Life Sciences Area B3 - Laboratory Activity- Lab course used from B1 or B2

UC/IGETC GE: Area 5B - Biological Sciences Area 5C - Laboratory
